

April 23th to 26th

This Week We:

- Worked on the letter Pp. Help me find words that have this letter in it and encourage me to practice printing it at home.
- Continued to recycle in the classroom. When you pack my lunch show me what containers can be recycled.
- Studied worms. We went outside to dig for worms. We looked at worms using a magnifying glass and did a few experiments. Ask me what I know about worms.
- Were introduced to the parachute. We are learning several games and had a shared gym class with Ms. Grubb's class.
- Learned to string paint. Ask me what I like about the art project.
- Watch a talent show. Ask me what my favorite performance was.

Poem:

I love the Earth
I love the flowers
I love the trees
I love the animals and the fish in the seas
I love the desert and the rain forest too
I love the Earth!
Its home for you and me!

Reminders:

Next week we will be studying three-dimensional shapes. Please send one 3-D household object to school on Monday (either a cylinder, prism, sphere, cone or a cube)
